

ATTENTION OTs!

Want to know more about successful interventions for patient self-management?

Come check out this course at Symposium:
Patient Self-Management: How to Make It Work

Saturday, May 4 | 8:45 a.m.

We'll discuss strategies and interventions to increase your patients' skills and knowledge to manage their own health.

Do you know how to interpret and apply ACL and CPT assessments?

Find out in this course:
Function First: Utilizing ACLS and CPT for Cognitive Assessment

Sunday, May 5 | 10:45 a.m.

This course, taught by occupational therapists, will provide practitioners with how these assessments successfully guide patient-specific treatment plans and provide discharge recommendations.

Check out these and other great OT-specific courses and celebrate the 20th anniversary of Infinity Rehab at Symposium!

Don't forget, you can receive cost reimbursement through our Life-Long Learning Policy! Visit Springboard for full details.

Save even more by applying for our Symposium Scholarship for a chance at a FREE two-night hotel stay!

Check the recent Insider or visit afcinsider.com to apply for the scholarship and register for Symposium.

Celebrate 20 years with us at Symposium!
